

The Herald and News

SOME LIGHTS ON THE POLITICAL HORIZON.

MEMORIES FOR DARK, OR FOR THE DARK—RUE FOR THE TRIFID.

A momentous consideration. The Florence Times seems to be satisfied in its estimation that the Bank of the People has

been the cause of the present

political situation.

[The State, Dec. 1.] The Florence Daily Times publishes a story of political speculation which is at least interesting. How nearly true it is quite another thing. But it is safe to say that several statements therein are probabilities. As to the informant spoken of, those who know the men mentioned will doubtless think that they can guess right the very first time. The story, given for what it is worth, is as follows:

Will Senator McLaurin get a place in the Republican cabinet?

There are pretty strong indications of it, impossible as the thing may look to a man up a tree. It is said that the proposed official secretary of commerce is the position designed for the South Carolina, an easy chair after he has been chosen through the bare patches and rags upon rise in the next primary election.

Senator McLaurin's success in the election does not seem to be anticipated and the mistakes he makes do not worry him any great deal. He is in training for the position of secretary of commerce and all he wants to show in South Carolina is a big following, hell-blame the rest on Tillman, and the newspapers out of the State will keep that state mad and will command poor "Tillman's widow South Carolina," whose best and bravest men are politically ostracized at the bidding of the bear. There will be whole column of that.

This following, which will be a large one, will be regarded as the nucleus of the new Republican party to be shaped out by other hands and to be held into the fold by another shepherd.

The question is then asked, what good can Senator McLaurin do if defeated.

In the first place, said The Times' informant, who is pretty well posted and who has peeped behind the curtain, he will be made a martyr and the position of martyr is always a strong one, it turns defeat to victory. The senator will be given a position because the Republican party always pays off political debts. If need them nothing, the pay comes from the people and to be generous and grateful under such circumstances is cheaper than not to be. He will be paid and the people will foot the bill.

This nucleus of a party will be worked on by the new cabinet officer and by those who look forward to "something equally as good."

This is the game as between the powers in Washington and the instrument (that is not bound a word or tool) in South Carolina, but there is another deeply interested factor, the cotton mill men of the State, who are really the backbone of the movement.

Postmaster Palmer

of So. Glen Falls, N. Y., describes a condition which thousands of men and women find identical with theirs. Read what he says, and note the similarity of your own case. Write to him, enclosing stamped addressed envelope for reply, and get a personal corroboration of what is here given. He says regarding

Dr. Miles' Heart Cure:

I suffered agonizing pain in the left breast and often in the shoulders from heart trouble. My heart would palpitate, better, than skip beats. I could no longer lie in bed. Night after night I walked the floor, for to lie down would have meant sudden death. My condition seemed almost hopeless when I began to take Dr. Miles' Heart Cure, but it freed me from the affliction. I took Dr. Miles' Nervine with the Heart Cure and the effect was astonishing. I earnestly implore similar sufferers to give these remedies a trial.

Sold by all Druggists on guarantee.

Dr. Miles' Medical Co., Newark, Ind.

They are not pleased with the sentence. There is some talk of changing out another longer term now for the Senate and the magazine says from Germany that James T. Clegg, a reporter of strong anti-slavery of law pronounces it would not be a very surprising thing to see another amendment to the Bill next summer.

The talk of a great paper in Columbia that my name interests us all talk. It is said to be a well managed plan. The editor is said to have been selected and he is to name Henry Rice, who has been in the office of the late and who thinks that our interests are divine indications for the advancement of civilization. They hope by the power of money to kill and crush out all newspaper opposition. Their plan goes down into very minute detail.

They do not like Senator McLaurin, it seems, because he has carried the doctrine of commercialism too far.

That is, he is looking out for himself more than he is for them.

As to the federal patronage that is said to be promised and absolutely in the control of the McLaurin committee. They can and will change any office holder in the State. It is said that the officials of the postoffice department, and assistant postmaster general objected in a meeting of leaders to having his department used in politics and that Chairman Huron gave him very plainly to understand that it had to be done for the good of the party and if he did not like it he could leave the service.

President McKinley in his life time objected to a wholesale removal of politicians that it would react in the party.

Huron told the President

to have that matter to him, that "his secretary understood the checking system." In other words

orders were given, the Greenville men instructed as an instance, that if

nothing was wrong in the office to make it wrong and these instructions

have been carried out. Should the Florence office be desired, should some man offer who was desired, something would be made wrong.

These are the methods. The movement and the forces are well organized and but for a step or two the public would never have known the secrets of the inner court.

Much of this article will be characterized as lie and it will have to bear the charge unless the reader of it is willing to accept the writer's statement that it has been gathered from reliable sources, but that the proofs are not to be had.

HOLLOWED OUT WIFE AND HER MURDER IN LAW.

And blood at others of family ended all

By shooting himself. He was

Dobbing.

Special to The State.

Anderson, Dec. 13.—This afternoon at 6 o'clock at Lima, in Greenville county, near Piedmont, and 11 miles from Greenville, occurred one of the most horrible crimes ever committed in the history of the country. Edward Hollis, a young white man, walked into the room where his family and relatives assembled, shot and killed his wife and his sister-in-law, fled unceasingly at his mother-in-law and his son, and then shot himself.

This is the game as between the powers in Washington and the instrument (that is not bound a word or tool) in South Carolina, but there is another deeply interested factor, the cotton mill men of the State, who are really the backbone of the movement.

Mr. Hollis is a hat drummer. Dur

ing his husband's absence, Mrs. Hollis and child live with Mrs. Hollis' parents, Mr. and Mrs. J. B. Pool. Hollis had returned to spend the holidays.

Several days ago he and his wife quarreled and this is supposed to be the cause of the deed. This afternoon and at the time of the shooting Mr. Pool was out hunting. Hollis is said to have been drunk. He was known to be a wild, reckless man and feared by the community. Both families concerned are prominent. The entire community is grief stricken over the occurrence.

TILLMAN OPPOSED KOESTER.

Senator Files Charges Against Collector on Lynching Record.

Washington, Dec. 12.—Senator Tillman has filed charges against Collector Koester, protesting against his appointment on the ground of his alleged participation in a lynching several years ago. Koester will file forty or more affidavits to prove that he had no active participation in the affair.

The appointment of District At

torney Capers will probably be reported next Tuesday. Senator Mc

Laurin says there will be no opposition to its confirmation.

A woman feels like a reflection on her when any incident don't take after their fashion, but she has a strong imagination & a mighty body thing for her.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are caused by excretions of the body due to the nose, ears, mouth, and other portions of the blood that irritate and interfere with the proper action of the skin.

To have a smooth soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash, and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but do not remove permanently the ugly blemishes and the red, disfiguring pimples.

Eternal Vigilance Is the Price of Beautiful Complexion

When such remedies are tried, one

Mr. H. T. Ross, manufacturer of Sassafras Root Extract, says: "My daughter was afflicted for years with a disfiguring eruption on her face, which was removed by the use of my sassafras root extract. Many remedies were prescribed, but with

little success, until I tried my sassafras root extract, which removed the eruption in a few weeks. A green bottle covered her complexion with a perfect smoothness, and she is now the envy of all the girls in the neighborhood."

They do not like Senator McLaurin,

it seems, because he has carried the

doctrine of commercialism too far.

That is, he is looking out for him

himself more than he is for them.

As to the federal patronage that

is said to be promised and absolutely

in the control of the McLaurin committee.

They can and will change any office holder in the State.

It is said that the officials of the postoffice department, and assistant postmaster general objected in a meeting of leaders to having his department used in politics and that Chairman Huron gave him very plainly to understand that it had to be done for the good of the party and if he did not like it he could leave the service.
